TERRACE SCREW

NEW PRODUCT!

SREW FOR TERRACE AND FACADE CONSTRUCTION

PRODUCT DESCRIPTION

- ◆ Stainless steel according to DIN 10088.
- ◆ Martensitic stainless steel prevents the appearance of rust on the screw head and the base material.
- ◆ 50% higher breaking torque than A2.
- ◆ Torx head for maximum higher tightening torque.
- ◆ The screw geometry reduces the risk of cracks.
- ◆ The special head reduces the chip build-up.
- ◆ With milling rib for easy countersinking in all types of wood.
- ◆ The shaft with milling thread and special head reduces the tension and the resistance in the base material and the friction and warming of screw.
- ◆ Limited acid resistance, magnetizable.
